Collins Aerospace Summer Internship Program 2024

Description

As a Collins Aerospace intern, you'll be placed in a specific department based on your interests and qualifications. You'll collaborate with experienced engineers, scientists, and business professionals on projects related to:

- Learn about lean manufacturing principles and production optimization techniques.
- Assist with quality control procedures and production line efficiency.
- Gain insight into supply chain management and logistics.

Responsibilities

- Assist with assigned projects under the guidance of experienced mentors.
- Conduct research, collect data, and prepare reports relevant to your internship area.
- Participate in meetings, trainings, and potential site visits.
- Contribute to maintaining a professional and collaborative work environment.
- Specific tasks will vary depending on the chosen department and program focus.

Qualifications

- Currently enrolled in an accredited undergraduate program (sophomore or junior year).
- Minimum GPA of 3.0 required.
- Strong interest in the aerospace industry and related fields.
- Excellent communication, analytical, and problem-solving skills.
- Ability to work independently and as part of a team.
- Proficient in Microsoft Office Suite, with additional software skills preferred depending on the program.
- U.S. citizenship or valid work authorization required.

Experience

- Prior internship or relevant work experience preferred, but not required.
- Experience in your field of study or a related field is a plus.
- Strong academic performance demonstrates your ability to excel in the internship.

Skills

- Excellent written and verbal communication skills.
- Ability to manage time effectively and meet deadlines.
- Strong research and data analysis skills (where applicable).
- Teamwork and collaboration skills.
