DISA Internships Program For Graduates Students 2026

Description

The Defense Information Systems Agency (DISA) is proud to announce its Internship Program for Graduate Students in 2026. This program offers a unique opportunity for graduate students to gain practical experience in information technology, cybersecurity, and defense systems. As an intern at DISA, you will have the chance to contribute to critical projects, work alongside seasoned professionals, and immerse yourself in the evolving landscape of defense information systems.

Responsibilities

- Assist in the development and implementation of information technology solutions.
- Contribute to cybersecurity initiatives, including threat analysis and risk management.
- Collaborate with teams on projects related to network infrastructure and communication systems.
- Conduct research and analysis to support decision-making processes.
- Prepare reports and presentations on project outcomes and recommendations.

Qualifications

- Currently pursuing a graduate degree in information technology, cybersecurity, computer science, or a related field.
- Strong academic record with a focus on relevant coursework.
- Excellent communication and interpersonal skills.
- Ability to work independently and as part of a team.
- Eagerness to learn and a proactive approach to problem-solving.

Experience

No specific professional experience required; coursework or research related to information technology and defense systems is beneficial.

Skills

- Proficient in relevant programming languages and tools.
- Familiarity with cybersecurity principles and practices.
- Strong analytical and problem-solving skills.
- Ability to adapt to a dynamic and challenging work environment.

Job Benefits

- Hands-on experience in the defense information systems domain.
- Networking opportunities with professionals in the field.
- Exposure to cutting-edge technologies and defense systems.
- Professional development and mentorship.
- Competitive stipend or compensation.
