GE Internship Students In United States 2026

Description

GE is excited to offer internship opportunities for talented and ambitious students in the United States for the year 2026. As an intern at GE, you will be part of a dynamic and innovative team, gaining hands-on experience in a global conglomerate committed to shaping the future of technology, healthcare, aviation, and renewable energy.

Responsibilities

- Collaborate with cross-functional teams to contribute to real-world projects and initiatives.
- Assist in data analysis, research, and the development of solutions to business challenges.
- Engage in day-to-day operational activities, gaining exposure to various aspects of the business.
- Contribute to the planning and execution of strategic projects.
- Attend workshops, training sessions, and networking events to enhance professional development.
- Provide support to senior team members and managers as needed.

Qualifications

- Currently enrolled in an accredited undergraduate or graduate program.
- Pursuing a degree in a relevant field such as engineering, business, finance, technology, or a related discipline.
- Strong academic record and a passion for innovation and problem-solving.
- Excellent communication and interpersonal skills.
- Demonstrated leadership abilities through extracurricular activities, coursework, or community involvement.
- Ability to work independently and as part of a team in a fast-paced environment.

Experience

While previous internship or work experience is not required, candidates with relevant experience will be considered favorably. GE values diversity and welcomes applicants from various backgrounds.

Skills

- Proficient in Microsoft Office suite and basic computer skills.
- Analytical mindset with a keen attention to detail.
- Strong organizational and time management skills.
- Adaptability and willingness to take on new challenges.
- Eagerness to learn and a proactive approach to problem-solving.

Job Benefits

- Mentorship and guidance from industry professionals.
