NSA Internship For Students 2024/2025 Apply Online

Description

The National Security Agency (NSA) offers a unique internship program for undergraduate and graduate students interested in cybersecurity, intelligence analysis, and other critical national security fields. Interns will work alongside NSA professionals on real-world projects, contributing to the agency's mission of protecting the nation's information systems and safeguarding national security.

Responsibilities

- Assist with research, analysis, and data collection relevant to assigned projects.
- Support program and project management tasks within specific departments.
- Develop and implement solutions to complex technical challenges.
- Gain exposure to various NSA functions, such as cyber defense, signals intelligence, and foreign language analysis (duties will vary by internship).
- Attend professional development workshops and seminars.

Qualifications

- Assist with research, analysis, and data collection relevant to assigned projects.
- Support program and project management tasks within specific departments.
- Develop and implement solutions to complex technical challenges.
- Gain exposure to various NSA functions, such as cyber defense, signals intelligence, and foreign language analysis (duties will vary by internship).
