Stryker Internship Graduate Students Program 2024

Description

The Stryker Internship Graduate Students Program offers a unique opportunity for you to dive deep into the world of medical devices and innovation. You'll be placed in a specific department based on your academic background and interests, collaborating with industry leaders on projects like:

- **Research & Development:** Assist in developing advanced medical devices and equipment, contributing to the advancement of surgical techniques and patient care.
- **Engineering:** Explore cutting-edge technologies in areas like robotics, biomaterials, and design, contributing to the creation of next-generation medical solutions.
- **Quality & Regulatory Affairs:** Gain insights into quality control processes and regulatory requirements that ensure the safety and efficacy of medical devices.
- **Marketing & Sales:** Support marketing initiatives and explore business development strategies that bring innovative solutions to healthcare providers.
- **Data Science & Analytics:** Utilize your data analysis skills to contribute to market research, product optimization, and process improvement initiatives.

Responsibilities

- Assist with assigned projects under the mentorship of experienced professionals.
- Conduct research, analyze data, and prepare reports relevant to your internship area.
- Participate in meetings, trainings, and potential site visits to gain exposure to various aspects of Stryker's operations.
- Contribute to maintaining a collaborative and innovative work environment.
- Specific tasks will vary depending on the chosen department and program focus.

Qualifications

- Currently enrolled in a Master's or PhD program in a relevant field such as engineering, science, business, data analysis, or a related discipline.
- Minimum GPA of 3.0 or higher preferred.
- Strong interest in medical technology, innovation, and the healthcare industry.
- Excellent communication and interpersonal skills with a passion for learning.
- Ability to work independently and as part of a team in a fast-paced environment.

Experience

Hiring organization

Stryker

Employment Type

Intern

- Prior research experience or relevant internship experience is a plus, but not required.
- A strong academic record demonstrates your potential for success.

Skills

- Excellent written and verbal communication skills.
- Strong analytical and problem-solving skills.
- Proficient in Microsoft Office Suite, with additional software skills preferred depending on the program (e.g., CAD software, data analysis tools).
- Attention to detail, a commitment to quality, and a high level of ethical conduct are essential.

Job Benefits

- Gain valuable hands-on experience in a leading medical technology company.
- Network with industry professionals and gain career insights in your field of interest.
- Contribute to meaningful projects with a direct impact on patient well-being.
- Develop essential skills for your chosen career path, including research methods, data analysis, and project management.
- Receive a competitive stipend and potential relocation assistance (benefits may vary).

How To Apply

Visit the Stryker careers website: <https://careers.stryker.com/>

- Search for “Graduate Student Internship” opportunities and filter by location and department of interest.
- Create a profile and submit your application along with your resume, cover letter, unofficial transcripts, and a letter of recommendation (if available).
- Application deadlines and requirements may vary by program, so review specific postings for details.
